PROGRAM 2021

>> ODYSSEY <<

Preface

by artistic director Maria Makraki
for ODYSSEY

The camerata europæa (CE) realizes as a part of its annual programme 2021, a cultural project under the motto Odyssey, indicating classic art forms in combination to various future tendencies and trends into an innovative programme. Odyssey represents the long journey and the adventurous wandering into the inner self. A walk on the path of self-knowledge and perception. The return becomes the search of the lost time, the doubts, the wounded emotions. The homecoming turns to be the allegorie of life towards revelation and human failure. The genuine music is located at the heart of the program and embraces all the other elements, such as the visuals and the performance. The artistic series Camerata Experimental, Camerata Mobile and Festival of Culture, give us the means to impact another perception of the Odyssey to the European audience.
